

Glass Bead Dispensers

Dispensing Technology's glass bead dispensing systems are designed to deposit retro-reflective glass beads on traffic paint lines. These systems are complete with a 50-pound capacity hopper that accepts a full bag of beads, a single or dual dispenser and all hoses, fittings and hardware required for operation. These systems are gravity flow units. **No air or auxiliary power source is required for operation.** The dispenser is mounted directly behind the spray gun.

When the gun is actuated, the bead dispenser door opens simultaneously with the gun. A shower of beads the width of the dispenser is then deposited onto the wet paint line. The amount of beads dispensed is easily adjustable using only a screw driver (6 pounds of beads per gallon of paint is a good rule of thumb). These dispensing systems are available in combination 4 and 6 inch widths as well as 12 inch widths. The various widths are interchangeable.

Kits come complete with hopper, dispensers, hoses and all mounting hardware required for operation (tools not included)

Pre-drilled and tapped holes in frame make mounting the bead hopper very easy. Durable powder coated hopper and mounting brackets

Quick connect swivel fittings and linkage provide ease of installation and removal when painting lines where beads are not needed.

Flow of beads is controlled by adjusting the slide plate opening behind door. Dual plates allow selecting 4" or 6" width

Bead dispensers are available in combination 4 and 6 inch widths, as well as 12 inch wide units.

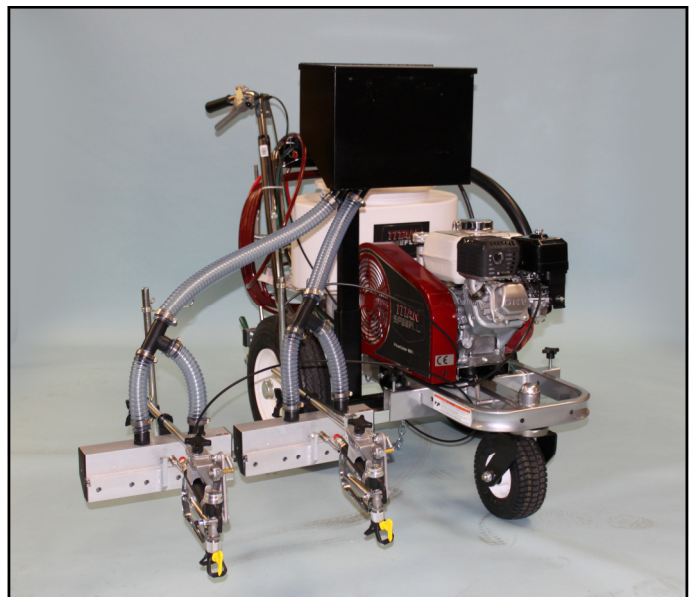

Single gun kits are standard with optional second gun kits available. Shown to the right are dual 12 inch dispensers used for continental crosswalks and airport lines

6 " BEAD DISPENSERS AND KITS

- BD-424-826 = Bead dispenser kit, single 6"
- BD-424-836 = Bead dispenser kit, dual 6"
- BD-424-816 = 2nd gun kit, 6"
- BD-600G = Bead dispenser only, 6"

12" BEAD DISPENSERS AND KITS

- BD-424-840 = Bead dispenser kit, single 12"
- BD-424-841 = 2nd gun kit, 12"
- BD-1200G = Bead dispenser only, 12"
